

LES DAUPHINS

CÔTES DU RHÔNE VILLAGES RED

The High Environmental Value certification confirms that the vineyard: promotes biodiversity, reduces quantity and frequency of the treatments use, maintains plant cover on uncultivated areas and preserves water resources.

CLIMATE AND SOIL

The vineyard is located in the South-East of France, around the village of Tulette, in the old historic region of Dauphiné.

The generic appellation presents the diversity of the terroirs of the southern Côtes du Rhône, with its alluvial plains and terraces, rolling landscapes and tiny villages perched on the hillsides.

VINEYARD AND VINIFICATION

The quality of our wines lies in the careful attention given to each stage of the winemaking process. This wine is made from highly aromatic local grape varieties. Harvested at perfect maturity to obtain excellent aromatic concentration. Aged for four months to increase drinking pleasure and offer smooth mellowness.

TASTING NOTES

A decidedly southern style of wine with a bright garnet hue, a reflection of the sun-drenched terroirs from which it hails. It boasts a seductively smooth structure and notes of lightly caramelized ripe black fruits. The palate is silky smooth with notes of liquorice and mocha

GRAPE VARIETIES

 65% Grenache
35% Syrah
